Eurotherm

Distributed Graphic Recorders Specification Sheet

 Color touchscreen display

Modbus master

MODELS

- 96MB non-volatile Flash memory
- Ethernet TCP/IP
- Serial comms
- Compact Flash
- USB 'plug & play'
- Web server
- EtherNet/IP server
- Multi-language support (including Chinese, Korean, and Cyrillic)

Each 6000XIO instrument has an intuitive, touch screen display to enable operators to clearly view process data in varying formats. All have onboard Flash data storage capability, Ethernet communication and Compact Flash Card. Data is stored in a tamper-resistant binary format that can be used for secure, long term records of your process. The 6000XIO is truly designed for today's networked world and can be accessed via a Local Area Network, dial-up connection, Intranet or Internet.

Available features					
	6100XIO	6180XIO			
Display	5.5" 1/4 VGA	12.1" XGA			
Comms channels (standard)	18	48			
Additional virtual channels*	36, 9	36, 96, 128			
Groups	6 standard	6 standard (12 optional)			
Auditor features	Auditor o	Auditor or Audit Trail			
Timers	Fitted as standard				
Alarms	4 per channel				
Batch	Opt	Optional			
Bridge- Remote	Lite as standard (Full optional)				
viewing software					
Screen builder	24 screens (optional)				
Security	Unlimited unique user names with configurable access permissions and passwords				
Configuration software	Standard				
Review/Quickchart Lite	Standard				
software					
Standard views	Vertical and horizontal trending,				
	Vertical and horizontal Bargraphs,				
	Circular Trend and Numeric Values				
Modbus slaves	16 Standard (32 optional)				

^{*} Virtual channels can be configured as Maths, Totalisers, Counters or Comms

imagine absolute data records forever

Data logging and archiving

The 6000XIO recorders have internal Flash memory for secure data storage. They are also able to accept various removable media types (compact flash or USB memory stick). Data stored within the internal memory can be archived to the removable media on demand or at preset intervals. The 6000XIO will give indication of how long its internal memory and that of the removable media installed will last according to the configuration of the recorder.

All 6000XIOs have Ethernet capability. The 6000XIO can be configured to archive to the removable media and / or over Ethernet. Archiving files over Ethernet effectively gives a secure, infinite archiving capacity.

Approximate duration for continuous recording of one Group of six channels, high compression:

Archive Media	Sample Rate						
	0.125s	0.5s	1s	5s	10s	30s	60s
32Mb Internal Flash (approx. 4 million samples)	2.83 days	11.3 days	22.6 days	113 days	226 days	1.86 yrs	3.7 yrs
64Mb CF Card or USB memory stick (approx. 8 million samples)	5.66 days	22.6 days	45.3 days	226 days	1.2 yrs	3.7 yrs	7.4 yrs
256Mb CF Card or USB memory stick (approx, 32 million samples)	22.6 days	90.6 days	181 days	2.4 yrs	4.9 yrs	14.8 yrs	20 yrs
1Gb CF Card or USB memory stick (approx. 125 million samples)	88 days	354 days	1.9 yrs	9.6 yrs	19 yrs	58 yrs	116 yrs
8Gb CF Card or USB memory stick (approx. 1000 million samples)	1.9 yrs	7.8 ys	15.2 yrs	76.8 yrs	152 yrs	464 yrs	928 yrs
16Gb CF Card or USB memory stick (approx. 2000 million samples)	3.8 yrs	15.6 yrs	30.4 yrs	153.6 yrs	304 yrs	928 yrs	1856 yrs
Ethernet (FTP Server)	Infinite						

Time synchronisation (SNTP)

The 6000XIO support Simple Network Time Protocol which, when enabled, updates the instrument time every 15 minutes from the configured SNTP server. The unit can also act as a Unicast SNTP server on the network, allowing client instruments to synchronise with the 6000XIO to a resolution of one millisecond.

Batch recording

Up to ten user-defined fields can be used to enter batch specific data.

Field Descriptor	Operator entered batch information
- up to 20 characters	- up to 60 characters

The user can choose to log any number of the given fields on start and / or stop of a batch. The information will appear on the chart as a message and cannot be separated from the process data to which it relates

Auditor features

Designed to meet the requirements of the FDA Regulation 21 CFR Part 11 for Electronic Records and Signatures, this software option provides the 6000XIO with additional security such as password ageing, electronic signatures and time stamped audit trail.

Audit trail

A sub-set of the Auditor which provides the 6000XIO with a time stamped audit trail. It does not include password ageing and electronic

Mircosoft® Active Directory® directory service

A utility intended for User Access Administration of PCs. It is a tool used by the IT administrators to manage user access across the company wide network. It allows users to be given access according to their functions by allocating them to a group with defined privileges. It also includes the necessary features such as password expiry, autologout, minimum length password, etc. It allows the users to manage their password from any node on the system.

Modbus master

Allows users to view data from multiple instruments connected either by a local Network connection using Modbus TCP, or a Serial connection using Modbus RTU.

Reports

Fitted as standard the Reports option provides the 6000XIO with the ability to generate up to 10 simple reports that can be displayed as part of the recorded data. Reports, triggered by an event/job can be configured to contain parameters such as time and date, batch names, process values and user defined messages.

Dynamic Host Configuration Protocol (DHCP)

Dynamic Host Configuration Protocol, the successor to BootP, allows a 6000XIO host to obtain Network parameters, such as IP address, Subnet Mask, default gateway and DNS server address dynamically. The implementation of DHCP on the 6000XIO significantly reduces the overhead for maintaining a network of instrumentation.

SPECIFICATION

Environmental performance

Temperature limits Operation: 0 to +50°C

-20 to 60°C Storage:

Humidity limits Operation: 5% to 80% RH (non condensing) Storage: 5% to 95% RH (non condensing)

Protection Bezel and display: IP65 IP20 Sleeve (rear of panel): Vibration (10Hz to 150Hz): 1a peak

Electromagnetic compatibility CE, (EMC) Emissions and immunity: BS EN61326

Electrical safety

(BS EN61010): Installation cat. II; Pollution degree 2

INSTALLATION CATEGORY II

The rate impulse voltage for equipment on nominal 230V mains is 2500V.

POLLUTION DEGREE 2

Normally, only non-conductive pollution occurs. Occasionally, however, a temporary conductivity caused by condensation shall be expected

Physical

Panel mounting: DIN43700 Panel mounting angle: Vertical 144 x 144mm 6100XIO Bezel size:

Panel cutout dimensions: 138 x 138mm (both -0/+1mm)

Depth behind panel: 87.7mm Weight: 1.5kg 288 x 288mm 6180XIO Bezel size:

> 282 x 282mm (both -0/+1.3mm) Panel cutout dimensions:

Depth behind panel: 70.4mm Weiaht: 3.7ka

Operator interface

Colour TFT LCD, with cold cathode backlight. fitted with resistive, analogue, touch panel

6100XIO: 1/4VGA (320 x 240 pixels) 5.5" Size and resolution 6180XIO: XGA (1024 x 768 pixels) 12.1"

Power requirements

Supply voltage: 19.2 to 28.8V dc (24V dc nominal) 6100XIO: 20W

Power consumed 24W 6180XIO:

Fuse: No user replaceable fuses

Inrush current: 10A max

Ethernet communications

10/100Mbps Auto Sensing Ethernet Port: Protocols:

TCP/IP, FTP, DHCP, BOOTP, SNTP, MODBUS, SMTP, ICMP, EtherNet/IP

Cable CAT5 Type: Maximum length: 100 metres Termination: RJ45 (shielded)

Serial communications

No. of Ports:

Modbus RTU Master and Slave Transmission standard:

EIA422 or EIA485 Half Duplex

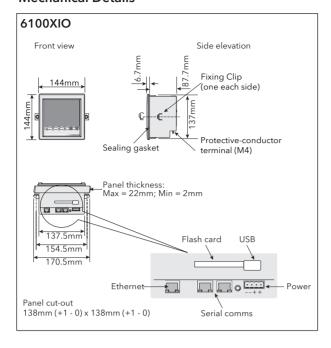

Back-up battery.

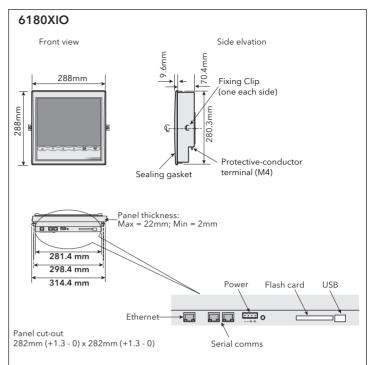

Poly-carbonmonofluoride/lithium (BR2330) Type: Support time (RTC): 1 year min, with recorder unpowered Replacement period: 3 years

Stored data: Time; values for totalisers, counters and

timers; batch data; Fvalue, Rolling average, Stopwatch etc.

Mechanical Details

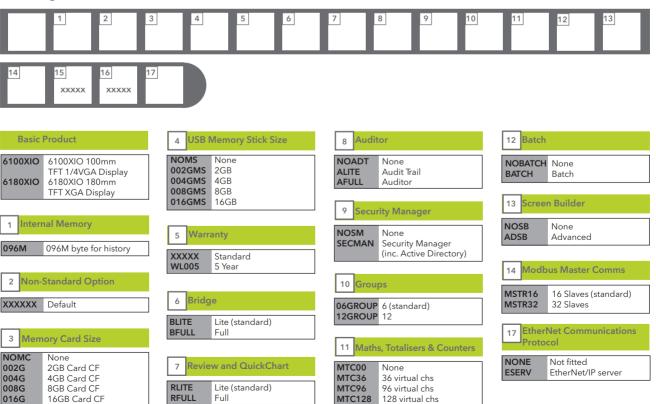

Panel Mounting Details

Installed panel angle: Vertical panels only

Minimum inter-unit spacing: 50mm vertical or horizontal

Note: Where multiple units are mounted in close proximity with one another, steps must be taken to ensure that the resulting ambient temperature does not exceed the specified maximum operating temperature of 50 degrees Celsius.
