

PRODUCT DESCRIPTION

The protective face shield protects the user and his environment from droplet infections that can be transmitted by speaking, coughing and sneezing. The mobility of the head is maintained and the crystal clear lens offers a full view. A low total weight and the soft forehead support finish off the comfortable wearing experience.

PRODUCT FEATURES

- Protects the important areas of the face; like eyes, mouth and nose
- Multiple use possible, as it can be disinfected
- Comfortable design with 1.18 inch wide, soft forehead support
- Anti-fogging, due to open design
- Adjustable headband
- Surface of the shield is not scratch-resistant
- No tinting effect of the shield
- No optical corrections
- No filter effect according to FFP1, FFP2 and FFP3
- No CE type tests available

SPECIFICATION

Component type:	Face shield; Headband 13.78 inch adjustable
Shield material:	Polyester film with 0.07 inch thickness, crystal clear
Size:	approx. 9.45 x 9.45 x 0.79 inch; field of view 9.45 x 7.48 inch
Weight:	approx. 30 g

CLEANING

To prevent the transmission of infections, the device must be cleaned and disinfected regularly. Cleaning is done with a lint-free cloth, water and 70% isopropanol.

For cleaning, wipe both sides of the shield with a damp lint-free cloth, then disinfect with min. 70% isopropanol.

Attention: Do not place the shield on uneven, rough surfaces during the cleaning process. This will help prevent scratches.
